### Voyager Portable Ceiling Lift

BHM Medical’s 12-pound portable track lift, the Voyager, is a David in a world of Goliaths. Not only is it easy to carry and store, but with a lifting capacity of some 440 pounds, it is in a performance class by itself. With its 24-volt battery pack, it can be recharged in less than 2 hours. Now BHM has added the “Quick Releaser”, a user-friendly device which swiftly disengages the strap for easy, safe and quick suspension and removal of the lift.

The Voyager portable offers a lifting capacity of: 440 lb (200 kg)

---

### Features
- **Weight**: 5.45 kg / 12 lb / 0.86 st
- **Lifting capacity**: 200 kg / 440 lb / 31.49 st
- **Soft start & stop movement**
- **Return to charge function on handset**

### Safety Features
- **Emergency lowering device**: Manual
- **Device for emergency stop of the mechanism**: Helps to prevent freefalls
- **Current limiter & emergency stopping device**

### Technical Specifications
- **UL STD 2601-1 / ISO 10535 / CSA C22.2 No. 601.1 - M90 / IEC 60601-1**
- **Vertical displacement speed**: 4 cm/sec (1.6 in/sec)

### Battery Specifications
- **Rechargeable sealed lead acid 24VDC, 2.0Ah**
- **Intelligent & fast charging system**: 2 to 4 hrs for complete charge
- **Battery capacity with load of**: 80 kg / 180 lb / 12.6 st
- **Up to 30 transfers**
- **Low battery disconnect system**: Protects batteries from being drained
- **Charge input**: 90-240 Vac, 50-60 Hz, 27VA max.
- **Charge indicator**: Visual

### Strap Specifications
- **Length**: 2.2 m (88 in)
- **Automatically stops unit if twisted**

### Unit Construction
- **Frame**: aluminium
- **Cover**: fire retardant plastic

### Accessories
- 1. 700.13600 Hand Control - 2 Way
- 2. 402.00001 Charger Power Cord - North America
- 3. 402.00003 Charger Power Cord - Europe
- 4. 402.00005 Charger Power Cord - United Kingdom
