**Important!**
This Quick Reference Guide does not replace the lift unit’s Instruction Guide, which can be downloaded at www.liko.com.

### Safety Instructions

- Read the instruction guides for the lift and lifting accessories before use.
- Check to ensure that the sling’s strap loops are correctly fastened to the slingbar hooks when the sling strap is extended, but before the patient is lifted from the underlying surface.
- **Maximum load**: 200 kg (440 lbs).

To retain max. load it is essential to use accessories rated for the same max. load or greater.

### Hand Control

1. **Operate the lift only when tension is applied to the lift strap!**

### Electrical Emergency Lowering / Raising

2. **The arrows correspond to the direction of travel when the lift unit is mounted with the lift strap above the lift unit.**

### Mechanical Emergency Lowering

3. **In an emergency situation, lower the lift by pressing the red button marked “Emergency”.**

### Emergency Stop

4. **Activate:**

   - **Reset:**

### SSP Limit Switch

5. **The lifting motion is interrupted when load on the lift strap is biased or when the lift strap is twisted.**

### Changing Lifting Accessories

- **For more information on various alternatives, read the instruction guide for the lift unit.**

### Alternative Use

- **For more information on various alternatives, read the instruction guide for the lift unit.**

### Simple Troubleshooting

- **Check to ensure that:**
  - the emergency stop is not pressed in
  - the battery is charged
  - the hand control is properly connected.

### Charging of Batteries

- **Charge the lift unit regularly after use.**
- **The lift unit does not function during charging.**
- **Ensure that the Emergency Stop is not pressed in during charging.**

### Ergonomics

- Never lift manually – let the lift unit do the lifting.
- Take it easy. Work calmly and methodically.
- Don’t strain your back! Work in a walking stance with your back straight.
- Use the bed’s raising and lowering functions.
- Reduce the lever effect. Work close to the patient and the lift.

### Cleaning

When necessary, clean the lift with a moist cloth, using common surface cleaners or disinfectants.
