## MODULAR ACCESS SYSTEM

**Pathway<sup>®</sup>** is the **EZ-ACCESS<sup>®</sup>** line of products designed for the Durable Medical Equipment (DME) marketplace. For the DME dealer the Pathway System provides their customer with the safest, residential accessibility solution that is also simple to assemble, reconfigure, and store.

# PATHWAY<sup>®</sup>

## MODULAR ACCESS SYSTEM

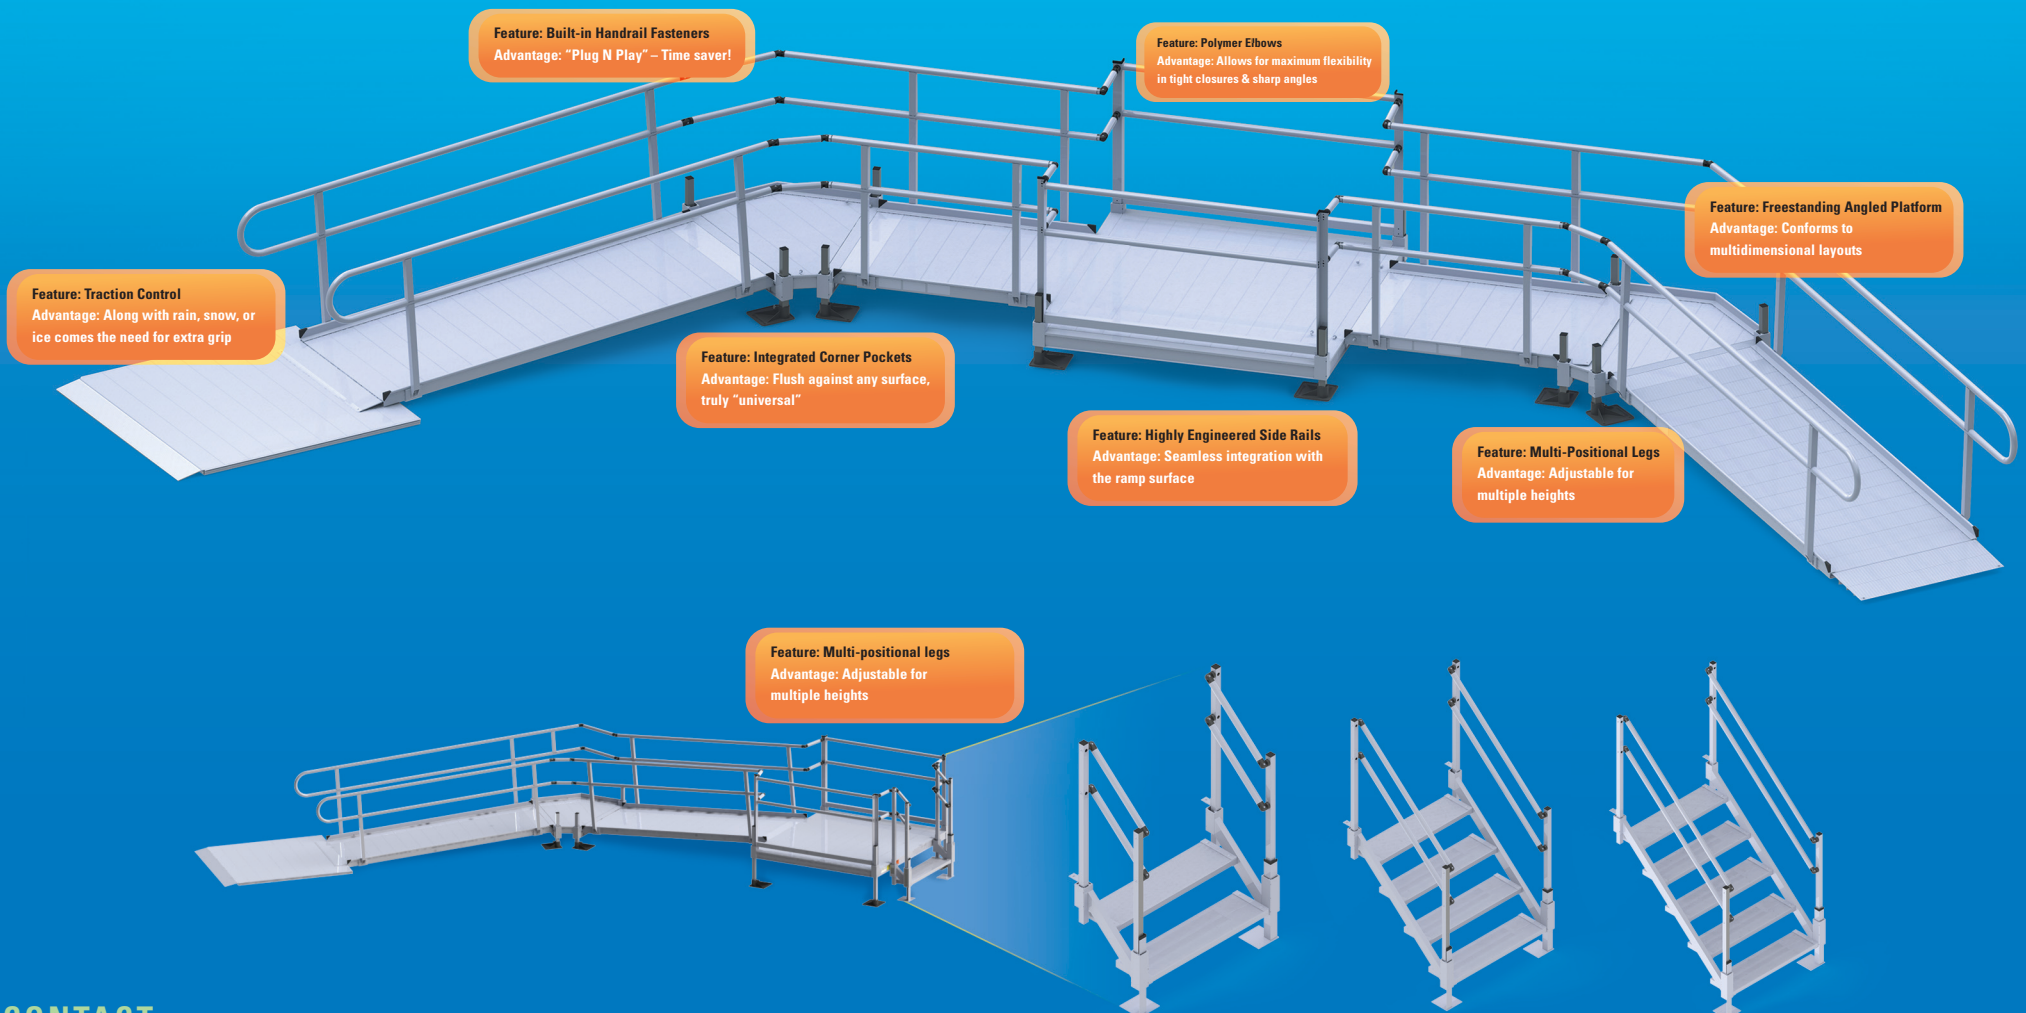

With a Pathway System, you can arrange multiple configurations to conform to your customers' unique situations. Simply add a step, a ramp, or extend the existing patio with this paralleling system designed to give you total integration from top to bottom.

Decrease your carbon footprint. Aluminum advantages are exponential in today's world. Reduce the time spent getting permits, and pass along a benefit of offering your customers a removal service at no cost! How? Rent and reuse your Pathway System! If that's

not enough...when the system has fulfilled its lifecycle, recycle and add more money directly to your bottom line!

You don't have to worry about mother nature with Pathway products. Our maintenance-free design protects against splintering, wearing, rusting, plus... assemble a Pathway System any season of the year!

Whether your customer needs a short term access solution, has a long term disability, or has experienced a recent injury - the Pathway System delivers the complete solution.
