

Med-Aire Plus Bariatric Alternating Pressure Mattress Replacement System

14060 80" (L) x 60" (W) x 10" (H), Pump and Mattress System, 1/ea

HCPCS code: E0277

FEATURES:

- This bariatric system provides alternating pressure to optimize pressure redistribution for patients with up to Stage IV pressure ulcers.
- Designed to prevent, treat and manage pressure ulcers in the home, long term care, or acute care setting.
- **Cell-on-cell design** of 10" deep air cells prevents "bottoming out" and also provides up to 24 hours of power outage protection.
- **Digital pump** allows for customization to individual patients' comfort and safety needs, and will auto-return to alternating pressure mode if system is left on static mode for >2 hours.
- **4-way stretch cover** is low shear, fluid-resistant, vapor permeable, quilted and zippered.
- Each one of the 20, **10" deep air bladders** are easily removed and replaced.
- Pillow function maintains the 3 air cells at the head of the bed in static mode for patient comfort.
- 3 diagnostic alarms tell you whether a problem is with the mattress or the pump for more efficient servicing.
- 1000 lb. weight capacity.
- CPR valve allows for rapid deflation.
