

Free standing system for portable ceiling lifts Easytrack FS

The Easytrack FS is a freestanding, versatile solution for all types of point-to-point transfers - wheelchair to bed, bed to chair, even in the bathroom, anywhere there is a lift and transfer need.

The Easytrack FS has a safe working capacity of 440 lb (200 kg). That's exceptional for a portable product making it suitable for use in almost any home. This equipment was designed to allow those with a mobility impairment to continue to live at home and enjoy normal activities.
